

AH-2 (ACTIVE)

The TESLA AH-2 is an active dual coil humbucker that features bar type ceramic magnets and plain enamel copper wire. The AH-2 is our highest output powered active guitar humbucker that produces a heavy, thick, dark sound, great chords and screaming clear middle tones. We feature another great TESLA innovation, meaning that our bridge pickup has 11% more windings than the neck pickup. Our newly designed super efficient preamp features a power consumption of only 90 micro amperes. That means your 9 volt battery will last approximately 6,000 hours, which translates to that on a guitar that is using two AH-2 pickups, you play 5 hours a day, the batteries will last 1 ½ years!

Position	Resonant Peak	Spacing	Output Level	Tone Chart:
NECK:	2.6 kHz	57 mm	HIGH	
BRIDGE:	2.5 kHz	57 mm	HIGH	

MORE INFORMATION

Type: DUAL COIL

Copper Wire: PLAIN ENAMEL

Magnet: CERAMIC (BAR)

Battery Life: 6000 HOURS

Current Consumption: 90 μ A

4 CONDUCTOR WIRE:

RED-DC 9VOLT

WHITE & BLACK-HOT

GREEN & SHIELD-GROUND

PICKUP COLOR:

BLACK,

CHROME,

GOLD

MUSIC STYLES:

ROCK, METAL, POP
